

KAFFE KATS

Background Fabric - Cut one piece 11 x 14 - grunge fabric any color

Tape cat template together matching registration marks.

Trace cat and heart templates onto steam a seam or fusible of your choice.

Cut out cat and heart, leaving about 1/4" around the line. *If you don't want a solid fusible on your appliques you can trim the inner area about 1/2" from the inside of your traced line.

Lay the fusible cat piece onto the back of the cat fabric, press in place, then cut out the cat on the drawn line.

Remove the paper from the fusible, place the cat onto the background and fuse in place.

Repeat for the heart - using a contrasting fabric and the template for placement of the heart.

Machine applique cat and heart onto background.

*** The original pattern used grunge for the background and Kaffe Fasset fabrics for the cat and heart (as in my sample)
