

The pattern was inspired by the beautiful Central Coast of California and by the mural my daughter painted on the side of my first quilt shop. This gorgeous view, in real life, can be seen from the turnouts at the top of Hwy 46 West, a road connecting Paso Robles to the coast. This highway and this view are some of my favorite things, among many, on the Central Coast of California.

Fabric requirements

1 Fat Quarter (18" x 22") for each of the 7 colors on the top

PLUS

1 Fat Quarter each for backing and binding

AND 1 yard fusible web

This pattern can also work well with small scraps for more of a patchwork look.
